12.15 Registration, Lunch & Networking

12.30pm – 2.30pm Lunch & Learn Workshop

Dr Brian Marien has been providing support and counselling for GPs for many years and so is very experienced in the pressures they face and the implications for a practice when a doctor isn't coping.

GPs are human and unfortunately sometimes the pressure of work combined with personal circumstances can leave them struggling. For the practice manager the challenge is to ensure that the practice continues to function and that the doctor gets the necessary support in what can be a very difficult situation.

This workshop will focus on:

- early detection of the doctor in difficulties
- opportunities for prevention
- opportunities for early intervention.

Thursday 29th September 2011

Training Fee: £0
